

Our Software

H&S Software

Our purpose-built online Health & Safety Management Software allows you to manage your own occupational Health and Safety.

Key features:

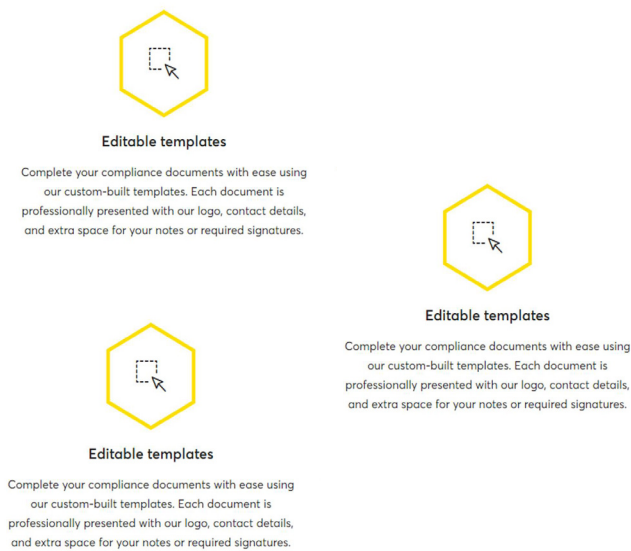

- Professional documents with your company branding, accessible from any device
- Cloud based, with all your documents securely stored online and backed up daily
- Risk assessment templates specific to your industry will be pre-loaded onto the software

HR Software

Craven HR Services provides proactive HR software, to help you run and manage your business in the best way possible.

Key features:

- Streamlines and automates those repetitive and time-consuming people management tasks
- Create onboarding new starter checklists and send out offer letters and contracts
- Give your people a system with their data they can access anytime, anywhere

Which of Our GDPR Compliant Software is right for Your Business & People? Sometimes businesses will use different software to compliment one another – please just get in touch if you have any questions, and we will happily guide you to choosing the right software option/s for your business.

"We have had the reassurance of Craven Safety Services providing professional advice and support for a number of years now and plan to continue doing so. In our works we represent high profile corporations, government departments, healthcare settings and all have extremely high expectations that we must meet. We are always pleased to know we can depend on your excellent support to help us deliver successfully against such stringent demands. We would very readily recommend their great support services to other organisations." - Andrew McCreadie - Vista Facilities
